

### THIRD TERM'S SECOND TEST

**Text:**

Meet Jessie. She is 13 years old and she suffers from obesity. She is 1.45 m tall but she weighs 70 kilos!

Jessy eats a lot of junk food. She likes pizza, chips, hamburgers, panini, chocolate, and soda. She can eat a big cake alone!

Jessy doesn't like sports at all. She never exercises, and she always takes a bus or a taxi to school. At home, she usually sits on her bed and watches TV all day long. She is a couch potato!

Jessy is in great danger because obesity leads to serious illnesses like heart troubles, diabetes, and high blood pressure. She must go on a diet immediately.

written by the teacher

**Task one:**

a- I fill this table. (2 pts)

<b>Name</b>	Jessy
<b>Age</b>	
<b>Height</b>	
<b>Weight</b>

**Task two: (2 pts)**

I find in the text words that are opposites of the following:

short ≠ .....

small ≠ .....

**Task Three:**

**a-** I reorder these words to get a meaningful sentence: (2 pts)

shouldn't – much – Jessy – too – eat.

**b-** I turn these sentences to the imperative: (3 pts)

- 1- You must follow a strict diet. ....
- 2- You mustn't eat too much sugar. ....
- 3- You should practice some sport. ....

**c-** I write **WF** for weak form or **SF** for strong form: (2 pts)

A: I have a headache. Should (.....) I take an aspirin?

B: Yes, you should. (.....) But you must (.....) consult a doctor first.

A: Alright. But you should (.....) come with me.

**Task four: (6 pts)**

I reorder the dialogue between Jessy and her dietitian.

**Dietitian:** Well, you must go on a diet immediately.

**Dietitian:** Let's see how much you weigh. Oh! 70 kilos. That's not healthy.

**Jessy:** Good morning. My name is Jessy and I suffer from obesity.

**Jessy:** Should I take any medicine?

**Jessy:** What must I do, doctor?

**Dietitian:** No, you shouldn't. But you should practice sport.

**Dietitian:** Good morning. what's your name?

**Good Luck**
